Art Unit: 3634

1. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the claim recitation setting forth the retractable barrier as comprising a first post assembly having a net carrier assembly, an upper flange, a lower post mount, a non-rotating cap, the net carrier rotatably supported to rotate about an axis, a net secured on one end to the net carrier and having a second post coupled to another end, a spring disposed between the cap and the upper flange, the spring anchored to the cap and supplying a retraction bias to the net carrier assembly, a first ground sleeve for insertion in the ground and adapted to releasably engage the lower post mount, a second ground sleeve for insertion in the ground and adapted to releasably engage the second post, wherein the barrier is moveable between a retracted configuration where the net is substantially wound onto the net carrier assembly and a deployed configuration where the lower post mount is inserted in the first ground sleeve, the axis is generally vertical, the second post is remote from the first post assembly and inserted in the second ground sleeve, and the net extends therebetween, all of which is not disclosed nor fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
